Is a New Internal Processing Form (IPF) Needed?

New Internal Processing Forms (IPFs) are not needed for every post-proposal and post-award action processed by the Sponsored Programs office. New IPFs must be submitted to Sponsored Programs via Cayuse SP when approvals/authorizations are needed from the department chair(s) and/or dean’s office(s). The following table outlines various proposal and award actions and the Proposal Type to be selected on the IPF, if a new IPF is required. *(Note: This table only reflects the relevant actions for the Sponsored Programs office. Other IPF types may be used by other offices.)*

Requesting Exception to Principal Investigator Status

Requests for exception to policy on Eligibility to undertake sponsor research and other sponsored activity are now processed through Cayuse SP.

1. Complete and sign Form 105-A: Request for Exception to Policy on Eligibility to Undertake Sponsored Research/Other Sponsored Activity available at: https://research.ucdavis.edu/resources/forms/#contract-grant-administration.
   a. If the exception request is for a student or post-doc, identification of and signature by an Academic Senate member who will have overall responsibility for the project or program is required.

2. Upload the signed form as a Proposal Attachment in the relevant IPF.

3. The unit head’s authorization of the IPF, serves as his/her approval of Form 105-A.

4. The request for exception will be reviewed as part of the SPO review process. If the request is approved, the SPO analyst will upload the approved form as a Proposal Attachment in the relevant IPF.

A new Internal Processing Form (IPF) is required for all proposals submitted to Sponsored Programs. Follow the general instructions below when creating a new Internal Processing Form unless otherwise noted.

Quick Reference

1. Start a Proposal.
2. Complete or view the status of a Proposal you started or on which you have an interest or are key personnel.
3. View Proposals in your unit that were initiated by someone else (requires appropriate access/permissions).

Cayuse SP Auto-generated Numbers

Cayuse SP creates identification numbers for each Project, Proposal, Award and Subcontract/Subaward.

1. Project Number
   a. Created by Sponsored Programs. Your Sponsored Programs analyst will assign each Proposal and Subcontract/Subaward to a Project. Awards are created from Proposals and assigned to a Project.

2. Proposal Number
   a. Created by Cayuse SP when the Proposal is created.

3. Award Number
   a. Created by Cayuse SP when the Award is added to the Project. The Award Number is the Project Number plus three digits at the end that indicate the number of Awards in that Project. The first Award is the Project Number-“001”, the second is the “Project Number-002” and so forth.

4. Subcontract/Subaward Number
   a. Created by Cayuse SP when the Subcontract/Subaward is added to the Project. The Subcontract/Subaward Number is the Project Number plus three digits at the end that indicate the number of Subcontracts/Subawards in that Project. The first Subcontract/Subaward is the Project Number-“S001”, the second is the “Project Number-S002” and so forth.

Requesting Advance Accounts

UC Davis policy 230-06 provides Principal Investigator’s the opportunity to plan activities and under certain circumstances, begin a project before actual receipt of the award document. An Advance Account may be established for a project prior to receipt of award only if all of the following criteria are met:

1. There is a compelling reason to expend funds prior to receipt of award.
2. There is verbal or written confirmation to the Office of Research from the sponsor’s contract officer or grants management officer that an award is forthcoming.
3. The requested advance dates fall within the sponsor’s anticipated award period.
4. The guidelines from the sponsor do not prohibit commitment of funds before an award is fully executed.
5. Expenditures will be in accordance with the expected budget categories and limits, sponsor’s guidelines and UC Davis policies and procedures.
6. There are funds available within the department, organized research unit or college/school to cover the expenditures in the event an award fails to materialize.

At a minimum, an alternate account number to be used in the event the project is not awarded and evidence of firm commitment must be included as part of the request. Please note that all compliance items must be received before fund are released. Typically, Advance Account requests will not be approved if the project requires IRB and/or IACUC approvals that are not in place.

Follow the instructions below to request an Advance Account.
